## 1934 Mack AB Water Truck

1500 gallon Tank, C Cab Model

Front & Rear Manual Water Sprays

V-8 Engine 360ci Ford, 4 speed Trans, 2 speed rear axle (Ford Chassis) I purchased this water truck a few years ago for advertising and parades. I have replaced all the wiring in truck and rewired all electrical to prevent fire. All lights and gauges work and vehicle is road worthy. I have driven in many parades and shows and it is a crowd delight. I have towed an old flatbed trailer with an antique dozer on it also in parades advertising for grading and demolition. This combo would get me many calls from large contractors seeking bids on jobs. I have found that in the late 50's or early 60's that the oil companies in S. California were using this type of truck for local oil deliveries and they installed the V-8 engines for more power in the delivery fleet. I was also told that this truck was used on movie sets in the 70's-90's. I have no documentation for either of these info's. This truck has a Calif title. The brakes are hydraulic and are in good working order.
