### Vehicle Description

**1950's Jaguar XK 120**

**Roadster Replica**

**\*\*Real MOVIE CAR\*\***

**\*Will be signed by Chris Tucker for winning bidder!**

**\*Will be signed by Brett Ratner! (director Rush Hour 2, Money Talks)**

**Your chance to own a Movie car with Celebrity history!**

This XK 120 is quite an accomplished Movie car having been in quite a few different projects. Currently owned by Brett Ratner director of many famous movies such as:

**“Money Talks” “Rush Hour 2” “After the Sunset” and the new “Rush Hour 3”**

Not only is it famous in its own right, but it was originally bought for **Rebecca Gayheart** famous Hollywood actress who has been in such movies and shows as:

**"Vanished"(2006) "Medium"(2006) "Nip/Tuck"(2004) "The Division"(2004)  
"Dead Like Me"(2003) "Urban Legends: Final Cut" (2000) "From Dusk Till Dawn" (2000)**

**Comes with:**

Certificate of Authenticity from Picture Car Warehouse Signed by Ted Moser! (Photos of signing will also be included) Car will be signed by **CHRIS TUCKER** and **BRETT RATNER!**

**The Car:**

This REPLICA Jaguar XK120 was originally built at "Cinema Cars" in Hollywood, California. Soon after being built was moved over to "**Picture Car Warehouse**" owned by Ted Moser builder of such cars as: the 1969 Yenko Camaro from "2Fast2Furious", 1999 Nissan Skyline from "2Fast2Furious", and 1970 Dodge HEMI Challenger featured in the movie "2Fast2Furious". The G.T.O.'s, 1969 Fastback Mustang and Ford truck as seen in "xXx 2", The Custom Buick Riveras in "Crank", The cars for the movie "Taxi". Ted Moser is one of the most famous Hollywood car builders today. Think of any recent movie you have seen that had any cars in it, those cars probably came from Ted Moser.

**This car has been featured in:**

(1997) This car starred in the movie "**Money Talks**" with **Chris Tucker**. It is even featured on the cover of the movie. At that time the car was painted red. I included a photo of the video cover in the photo section. "Money Talks" shows Chris Tucker as a small time con man who becomes famous after a murder. He turns to a Journalist (Sheen) to help him out. Car will be signed by Chris Tucker for winning bidder.

(1999) I am sure you can remember this car in "**Cruel Intentions**" driven by **Ryan Phillippe**. It was used to portray how the upper half live. "Cruel Intentions" had an all star cast starred Sarah Michelle Geller, Ryan Phillippe, Selma Blair and Reese Witherspoon. The car was repainted black for the filming of this show. The actual plot of the show revolves around the Jaguar, a bet is placed and if Sebastian succeeds, Kathryn must give him a night of unbridled pleasure, something's he's wanted since their parents got married. If he fails, he must forfeit his priceless 1956 Jaguar to Kathryn and suffer the shame of defeat.

(2006) This Jaguar XK 120 was featured in **Mariah Carey's new video "We Belong Together"** on her "The Emancipation of Mimi" album. This has to be one of her most famous songs! The video shows Mariah Carey getting ready to be married but being torn between two men. As the video proceeds she runs off with the man she loves and hopes in the Jaguar, with her wedding gown on and long train flowing behind her, and drives off with him. The video ends with a lot of footage of the car driving off with her in it.

**Condition:**

This is a movie car which is a bit different from a concourse car. If you have any specific questions on options or condition please ask me before bidding, something may be important to you that isn't to me. It is a very good running car because movie cars have to be. They can not afford to have a car on set that breaks as production costs would go through the roof. The car does not have a top. The exterior paint was painted red and then black so you can see nicks of red every once in awhile. I did notice some spider cracks and scratches here and there on the paint. There is a crack in the fiberglass at the very front which I pictured. The interior is in very nice shape, you can tell it was rarely used. You know Mariah Carey wouldn't ride in a car that didn't have the right look. The car has a full Ford Running gear from the engine, transmission and rear end. Making it easy for replacement parts down the road. The motor is a Ford 302 with 400 air cleaner finished with an automatic transmission. Again, the car runs and drives great! Your chance to own a piece of movie history.

**Jaguar XK 120 Info.**

*I am sure there are those of you that know a lot about Jaguar XK 120's and their replicas but for those of you interested because of this car celebrity status I included some history on the car. "The Jaguar XK 120 was designed to be a prestigious vehicle, produced in low numbers. The designation '120' represented the vehicles top speed, 120 miles-per-hour. At the time, it was the fastest production car in the world. To gain industry recognition, Lyons knew that he needed a show car that was revolutionary and bold. Lyons handled the styling while his chief engineer, William Heynes, was tasked with designing the mechanical components. When the vehicle was displayed at Earls Court, the reaction was overwhelming. Originally, Lyons planned to make between 100 and 200 examples. After the public reaction to the car and to keep up with demand, he decided to change the body from hand-formed aluminum to all-steel construction. Hand-built alloy-bodied cars dribbled out of the Jaguar factory in 1949 and back then you needed a name like Clark Gable to get your hands on one. The body of the car was reminiscent to the 'French Curves' produced by manufacturers such as Bugatti and Delahaye of the early 1930's and 1940's. The vehicle was powered by a 160 horsepower, 3.4 liter, inline-six cylinder engine. Peak horsepower was achieved at 5000 RPM. The 120-mph was the promised speed, the top speed of the vehicle was around 126-132 mph depending on the trim of the vehicle. In 1951, Jaguar entered the grueling 24-hour of Le Mans endurance race. Three XK 120 C, the 'C' representing 'competition', were entered. One of the three entrants won the event. In 1952, an XK 120 was driven continuously for seven days and nights around a track located in Montlhery, France. After more than 16,000 miles in one week, the vehicle once again proved its endurance capabilities. In 1954 production ceased. Over 12,000 examples were produced."-wikipedia.com*

**Please Read:**

**\*\*If you would like this car to be part of your collection please contact me by phone at 806-548-4382 so I can answer any further questions.
